

Putting the patient first: *Considering treatment choice and maximising quality of life in mHSPC*

Dear {{accTitle}} {{accLname}},

If you are attending ESMO, we would like to invite you to attend the Astellas-sponsored symposium, **Putting the patient first: Considering treatment choice and maximising quality of life in mHSPC**, on **Sunday 22 October, 13:00–14:00 CEST**, at the ESMO Congress 2023 in Madrid, Spain.

During this insightful symposium, the faculty will discuss major advances in the outcomes of patients with mHSPC and focus on how to put the patient first to maximise quality of life. Since patients receiving new therapies survive for many years, there will be conversations about improving quality of life and strategies to enhance survival outcomes for more patients with mHSPC.

Faculty

Professor Christopher Sweeney
(Chair)
Director of SAIGENCI and
Professor of Medicine,
University of Adelaide,
Adelaide, Australia

Professor Heather Payne
Consultant Clinical Oncologist,
University College London
Hospitals NHS Foundation Trust,
and Clinical Director,
The Prostate Centre, London, UK

Doctor Javier Puente
Associate Professor,
Faculty of Medicine, Universidad
Complutense de Madrid, and
GU Cancer Unit, Medical
Oncology Department,
Hospital Clínico San Carlos,
Madrid, Spain

For further details on this unique symposium and why you should attend, here is a short video from the Chair, Professor Christopher Sweeney:

Agenda

Session	Speaker(s)
Welcome and introduction	Professor Sweeney
