Speakers

Professor Nathan Lawrentschuk MB, BS, PhD, FRACS (Urology) ***Urological Surgeon and Urologic Oncologist***

Professor Nathan Lawrentschuk MB, BS, PhD, FRACS (Urology) is a Urological Surgeon and Urologic Oncologist who is Director of Urology at the Royal Melbourne Hospital with appointments at the University of Melbourne, Department of Surgery, Peter MacCallum Cancer Centre, Melbourne. Nathan is also the Director of the EJ Whitten Prostate Cancer Research Centre at Epworth Hospital in Melbourne. He completed a PhD in kidney cancer as well as two additional years of training in robotic and open cancer surgery at the University of Toronto, Canada obtaining a Society of Urologic Oncology Fellowship. He is a clinician scientist being awarded multiple grants and awards and is Investigator on multiple trials. He has published over 540 peer reviewed papers and book chapters. He is an Associate Editor of the BJU International and editor of the Australian and New Zealand BJU editions whilst he serves on multiple journal editorial boards and an invited speaker at multiple international conferences. He is also an innovator with multiple patents on medical devices that aim to help promote efficiency and help the environment.

Professor Seong Jin Jeong
Professor of Urology, Seoul National University Bundang Hospital,
Seongnam, Korea

Dr. Seong Jin Jeong received his medical degree and completed his Urology residency at Seoul National University Hospital in 2002. In 2006, Dr. Seong Jin Jeong moved to Seoul National University Bundang Hospital, Seongnam, Korea, and has served as the professor of the department of Urology till now. During these 15 years, Dr. Seong Jin Jeong devoted himself into clinical and research works in the field of voiding dysfunction, such as lower urinary tract dysfunction, neurourology, and urodynamics. With thorough clinical practice and over 10 thousand urodynamic studies, Dr. Seong Jin Jeong has published more than 150 peer reviewed papers. The interests of Dr. Seong Jin Jeong are in many aspects, and, recently, he has research interests focused on 'the detrusor underactivity' and 'urinary microbiome'. He also devoted a lot of time in the continence promotion and educational program of incontinence and voiding dysfunction in Korean Continence Society. Currently he is the Chairman of the Skills Workshop Committee of the Korean Continence Society, and is also the reviewer of several top urological journals such Journal of Urology, Neurourology & Urodynamics, PLoS ONE, and International Journal of Urology.
